

1. Go to <http://www.nada.com/>
2. Click on “Consumers – Visit Consumer Site”
3. Click on “Find the Right Car Now – New and Used Car Prices”
4. In the box under “Research by Make” select the make of your vehicle
5. Select the year and the body style from the drop down boxes
6. Click on your vehicle
7. The rest of it depends on how many different varieties of your vehicle are available. It should be self explanatory. Once you pick the right car, trim package, options, etc. you will be prompted to enter the odometer reading.
8. Once you get to the page with the values displayed, you can right click on the page, choose Print, then save as PDF.
